My trip to ECHO
When you take a trip to ECHO,

you might travel by foot, or car, or bus.
ECHO is a museum. A museum is a place where people go to learn and play with friends and family.

In some museums you learn about art. In other museums you learn about things that happened long ago.
When you take a trip to ECHO, you will ask science questions and...
... learn about the animals that live in and around the lake.
If you take a trip to ECHO, you will walk right in the front door.
You will be greeted by an ECHO friend in a **bright blue vest** at the front desk.
There is so much to see and do at ECHO.
What do you see?
You can visit Champ Lane...
And cook up some lunch at the cafe...
Shop at the **farmers market**...
Be the captain of a ship...
Climb into the **treehouse** and **slide** down the slide.
You can have some quiet time in the book nook...
Be a **scientist** in the kids lab...
Ask questions at the water table. What, How, Why?
You can touch (gently with just one finger) a sea star at the sea tank and explore the shipwreck.
Check out the **animals** like fish, turtles, frogs, and snakes!
If you take a trip to ECHO, you will want to come back again and again!
Address: 1 College Street, Burlington, VT 05401
