

My trip to ECHO

When you take a trip to **ECHO**,

you might travel by foot, or car, or bus.

ECHO is a **museum**.

A museum is a place where people go to learn and play with friends and family.

In some museums you learn about **art**.
In other museums you learn about
things that **happened long ago**.

When you take a trip to ECHO, you will ask
science questions and...

... learn about the **animals** that live in and around the lake.

If you take a trip to ECHO, you will walk right in the **door**.

You will be greeted by an ECHO friend in a bright blue apron at the front desk.

There is so much to see and do at **ECHO**.

What do you see?

You can visit **Champ Lane**...

And cook up some lunch at the **cafe**...

Shop at the farmers market...

Be the **captain** of a ship...

Climb into the **treehouse** and **slide** down the slide.

You can have some quiet time in the **book nook**...

Be a **scientist** in the kids lab...

Ask questions at the **water table**. What, How, Why?

You can try to balance a **wheel** and explore the **shipwreck**.

Check out the **animals** like fish, turtles, frogs, and snakes!

If you take a trip to ECHO, you will want to **come back** again and again!
